

Energy Efficient Automatic Home Generator Systems

Designed Around Your Life

In the past, selecting a backup power system meant choosing between a small generator that would meet only a fraction of your family's typical power needs and a much larger, more costly unit that could meet every possible power need. No more.

Perfect for medium-size and large homes, the 15kW and 20kW Home Generator Systems by GE allow you to "Power More for Less." The patented Symphony™ II Power Management System allows you to meet the power needs of your whole house – including up to eight high wattage appliances – without the need for a larger more expensive unit.

imagination at work

A Smarter Backup Power Solution

The patented Symphony™ II power controls offer a whole house solution for virtually every size home.

Most high wattage creature comforts normally require a large and expensive generator to meet with the demands of a larger home. Now you can manage the high demand appliances of even the most power hungry home with this affordable upgrade.

Providing Peace of Mind

Automatic

The Symphony™ II Power Management System continuously monitors your home's connection to utility power. The generator starts automatically when there is an outage and shuts down automatically when utility power is restored.

Reliable

GE is a name you know and trust. You can be confident that, when you need your Home Generator System, it will perform. The Briggs & Stratton Vanguard™ V-Twin engine will deliver years of reliable performance.

Warranty

The five-year limited warranty is the best comprehensive parts and labor warranty in the industry.

Designed Around Your Life

Quiet

The Sound Vault™ Technology features an automotive-style exhaust system and acoustic foam dampeners for quiet, neighbor-friendly operation.

Durable and Weather-resistant

The new military-grade finish ensures years of all-season outdoor protection and resistance to corrosion, chipping and abrasions eliminating the need for an aluminum enclosure.

Electronics-friendly

The system delivers clean, stable power, protecting your computers and other sensitive electronic equipment from damage.

Easy Monitoring

The optional remote monitoring system allows you to check system status without leaving the house.

Fuel Type	Propane (LP) Natural Gas (NG)	Propane (LP) Natural Gas (NG)
Ge Power Management	Whole House Symphony™ II Automatic Transfer Switch	
Watts LP/NG	15,000 (LP) 14,000 (NG)	20,000 (LP) 18,000 (NG)
Engine	895cc	993cc
	Commercial-Grade Vanguard™ V-Twin	
Operation	Fully Automatic	
Voltage	120/240V AC, Single Phase, 1.0 pf	
Amps (240V)	62.5 (LP) 58.3 (NG)	83.3 (LP) 75 (NG)
Alternator	Brushed	
Voltage Regulation	Automatic	
Full Pressure Lubrication	Yes	
Fuel Consumption* (at ½ Load)	56 ft³/hr (LP) 126 ft³/hr (NG)	71 ft³/hr (LP) 160 ft³/hr (NG)
Weekly Exerciser	Yes	
Sound Vault™ Technology	Yes	
Hour Meter	Yes	
Remote System Status Alerts	Low Oil Shutdown, Fail to Start, Low Frequency, Engine Overspeed, Low Voltage, Low Battery Voltage, Oil Temp High and Transfer Switch Fault	
Overcrank Protection	Yes	
Dimensions (LxWxH)	48" x 33" x 30.5" with pad	
Weight (Generator Only)	592 lbs.	600 lbs.
Warranty	Premium 5 Year Limited	

Included Extras Each system includes Whole House Symphony™ II switch, hour meter, battery charger, installation pad and synthetic oil

*Fuel consumption rates are estimated based on normal operating conditions at ½ load. Generator operation may be greatly affected by elevation and the cycling operation of multiple electrical appliances – fuel flow rates may vary depending on these factors.

This generator is rated in accordance with UL (Underwriters Laboratories) 2200 (stationary engine generator assemblies) and CSA (Canadian Standards Association) standard C22.2 No. 100-04 (motors and generators)
